

Adapt™ NC

Non-Condensing Tankless

Dependable Tankless Water Heaters from American

Dependable hot water is available for all with American's Adapt NC non-condensing tankless water heaters. Adapt NC features a copper heat exchanger for rapid and consistent performance, optional integrated X3 Scale Prevention Technology, and one of the strongest warranties in the category all packaged to meet your customers' needs.

MTI-180X3

Built to Adapt:

- Heavy duty outdoor-rated cord
- Offers Wi-Fi connectivity with optional kit
- Indoor or Outdoor models available

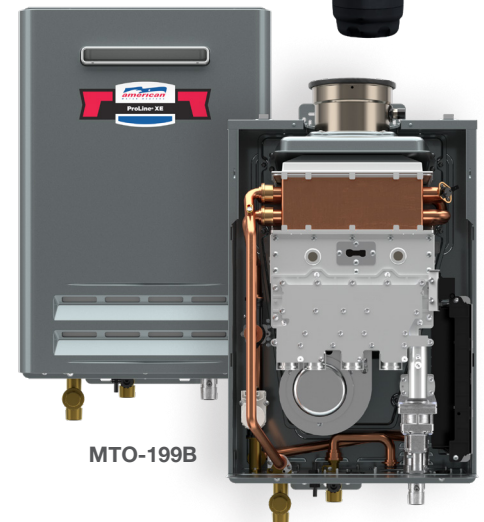

Built to Perform:

- Efficient 0.82 UEF
- Ultra-low NOx Emissions

Built to Last:

- X3® Scale Prevention Technology (on select models) extends the life of the unit up to three times longer
- No warranty exclusions for hard water with X3 models
- Maintains "like-new" performance longer
